

COVID-19 VACCINES MYTHS VERSUS FACTS

MYTH

The COVID-19 vaccine is unsafe and will give people COVID-19.

People will get sick from the vaccine.

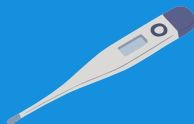

After vaccination, you don't have to worry about COVID-19.

FACT

Approved COVID-19 vaccines don't contain the live virus that causes COVID-19.

Some people may experience normal flu-like symptoms (e.g. mild fever).

Keep wearing a mask, washing hands often, and maintain 6 ft. distance.
