About the CHW Association

What is the Nevada Community Health Worker Association?

The NV Community Health Worker Association (NvCHWA) is a brand new association which provides training opportunities, advocacy and support for

Nevada Community Health Workers to create a cohesive CHW community.

Why do we need a CHW association?

Currently there is no single source of training information and support for Nevada Community Health Workers. The CHW Association strives to bring CHW's together to create opportunities for interaction, skill building, and sharing of strategies from CHWs all over the state!

How Can I learn More?

We are just getting started but you can visit our [website](#), like us on [Facebook](#), sign up for our [newsletter](#), or send us an [email](#) by clicking the buttons at the end of this email to learn about the development of the association, job opportunities, and future training and events!

Upcoming projects/News

CHW mentor/mentee project applications are open!

This project aims to pair newly trained/working CHWs with CHWs who have experience working in the field. The mentors and mentees will meet once a week (virtually) to use their shared knowledge to discuss issues, barriers and possible solutions.

If you are interested in becoming a mentor or mentee fill out the form below!

[Register to be a mentor/mentee](#)

Association membership will open in January of 2017!

Become a member of the Nevada Community Health Worker Association for the low price of \$20 a year!

Stay tuned for the membership registration link!

CHW statewide needs assessment!

This will help us to determine how to best support CHWs in Nevada! Keep an eye out for the link as it will go live mid December!

**Implementing the Culturally and
Linguistically Appropriate Services
Standards (CLAS) in Your Health Center**

Thursday, December 8, 2016 11:30am -
12:30pm PST; Online

Health Center leaders, managers/supervisors and staff. The Culturally and Linguistically Appropriate Services (CLAS) standards were developed to provide guidance on how to improve service delivery to clients who may not have sufficient access to care based on race, ethnicity, linguistic capacity or cultural background. This webinar will provide an overview of each Standard with specific examples of strategies in meeting the standard for organizational system improvement.

[We made it to 2017!](#)

As of the publication of this newsletter the NvCHWA will have been in operation for a whopping 203 days (or 6 and a half months)! In that time we have come far and have been humbled by the amount of positivity and support we have encountered from community health workers, organizations, and community members.

We wish to thank everyone for thier kind enthusiasm as we continue to strive to support community health workers and thier efforts to promote and improve health in Nevada.

Happy 2017!
